REST FOR THE WEARY!
ANDERSON
SPRING BED BOTTOM.
Patent granted October, 1861.
D. K. Frohock,
GENERAL AGENT,
Post Office Address, South Norridgewock.

THIS desirable mechanical arrangement has now been in use a sufficient length of time as to show that it gives entire satisfaction, and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department, embracing all and a little more of their excellencies, and yet happily overcoming all their defects. By means of it a Bed Bottom is obtained which is as flexible as hair, and yet so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness. They are made of good materials, warranted strong and durable, and not liable to get out of order.

TESTIMONIALS.

A New Bed.—Anderson Spring Bed Bottom is one of the comforts of the age, as we know from experience. The first morning after we used it we got up easier, and retired at night with a higher appreciation of a comfortable bed than ever before. It is an economical feature in a family, a substitute for feathers, and its elastic properties are very great.—*Kennebec Courier.*

The Lewiston Journal says the Anderson Spring Bed Bottom is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.

I have had the unspeakable pleasure of sleeping on one of the Anderson Spring Bed Bottoms for the last three weeks, and I must say it far surpasses any thing I had anticipated. My wife, who is feeble, has had no good rest for six months till occupying one of these beds. She would not part with it on any account. JOHN ALLEN.

Farmington, Feb 28, 1862.

The Bed Bottom I bought of you fully meets my expectations, and is fully up to your high recommendation. I would cheerfully recommend it to all who desire to improve their sleeping apartment. AL STAPLES.
A. N. WILLIAMS.

Augusta, April 16, 1862.

ANDERSON'S SPRING BED BOTTOM. This is a new claimant for public favor, recently patented, and now meeting with flattering success. It would seem important that when about one third of our lives are devoted to sleep, (or should be,) particular care should be exercised in selecting the most healthful and comfortable beds, and it is now claimed, and we can speak advisedly of the justice of the claim, that this patent meets the wants of the public most completely. The slats are twenty arranged and adjusted to any bed-stead, and by their elasticity and uniform elastic connection arrangements, contribute to the health and comfort of the sleeper, and cannot fail to give the weary rest. *Hallowell Gazette.*

Having tested the "Anderson Spring Bed Bottom," I can cheerfully recommend it to all who are in need of such an article; and I believe it to be superior to anything of the kind now in use.
E. HAWES.

Waterville, April 16.

I am using the Anderson Spring Bottom, and can say that I like it very much. It is all that it is recommended to be. EDWARD C. LOWE.

Waterville, April 12

I purchased three of the Anderson Spring Bed Bottoms last August, and can highly recommend them to all who value a comfortable and inviting couch. I would not part with them for many times their value.
WM. BODGE,
Conductor A. & K. R. R.

Waterville, April 11, 1862.

I have two of the Anderson Spring Bed Bottoms in my house, and having tested them, I take pleasure in recommending them as the best Spring Bed Bottom with which I am acquainted.
W. A. F. STEVENS.

Waterville, April 22, 1862.

I have one of the Anderson Spring Bed Bottoms, I have tried it, and like it—it is a good thing.

APRIL—Godey, Peterson, Leslie's and Ballou's Magazines, at BARTLETT'S, East Market Square.

MICHIGAN PINE LANDS.

The St. Mary's Ship Canal Company will offer
AT PUBLIC AUCTION,
On TUESDAY, the 17th of June next,
AT EAST SAGINAW,
All its lands upon the Saginaw River and its tributaries, covering nearly
100,000 ACRES

Of the best Pine Lands in the State. These Lands, whether we regard the quality of the pine, the amount per acre, their nearness to good streams, the cheapness of logging, the ease and safety with which logs are run and held, or the facilities for manufacturing and shipping, are unsurpassed, and are worthy the attention not only of actual operators, but also of capitalists, for it is not expected that they will bring at auction one half their real value. The lands were selected with the greatest care by experienced judges, and upon a comparison of the reports of different persons, who made their reports unknown to each other.

There are on the Saginaw River, between Saginaw City and Bay City—a distance of fifteen miles—forty two saw-mills, alongside of which vessels can lie and load. The proportion of clear stuff is very large, often averaging forty per cent. on a winter's logging.

The Valley of The Saginaw abounds not only in pine, but also in hard wood of the best quality, which is rapidly coming into demand for shipment.

There are also large tracts of farming lands of excellent quality, to be had at favorable rates.

In addition to all these advantages, it is now demonstrated that beneath the Valley of the Saginaw lies the most valuable salt basin in the United States. It is only about fifteen months since the manufacture of salt was begun.

There are now seven salt factories in operation, yielding a daily product of 500 barrels, and there are twenty one companies more that have bought their ground and are making preparations to manufacture as soon as possible. These salt works are largely increasing the demand not only for staves but also for cord wood.

From present indications it is believed that in no part of the Western country will the increase of population and the rise in real estate be so rapid, as in the Valley of the Saginaw for the next two years.

Also, the Company will offer at auction, on the first day of July next, at the town of Muskegon on Lake Michigan, about twenty-four thousand acres, all situated upon the waters of the Muskegon. The lands of excellent quality, and especially adapted to the Chicago market.

There are a dozen large steam-mills near the mouth of the river, alongside of which vessels can load. There is, upon the west ern side of the State, no river where so large a lumber business is done as upon the Muskegon. The quantity of cut last year was sixty millions of feet. These lands are specially worthy of the attention of lumbermen in Chicago and Milwaukee.

The Company has in its office at Detroit, a full description of the quality and quantity of timber upon each forty acre tract, as well as of the quality of the soil, and these descriptions are open for the inspection of any one who may wish to see them.

Catalogues of the lands, divided into groups as they will be offered for sale, can be had on application by letter or otherwise to the subscriber, at Detroit, or to

J. W. BROOKS, Esq., Pres't. Mich. Cen. R. R., Boston.

TERMS.—The lands will be offered at a minimum price of three dollars per acre, one fourth cash, to be paid on the day of sale, and the remainder in three equal annual payments, with interest annually at seven per cent., payable at the Company's office in Detroit.

To those who may wish to pay the full amount of their bid in CASH, at the time of sale, a discount of 5 per cent. will be allowed.

Contracts with purchasers will be made in accordance with the form already adopted and in use by the Company.

Any additional information that may be desired will be promptly given on application to

GEO. S. FROST,
Agent of the Company, Detroit.

The National Tax Bill is now under consideration in the Senate and it is hoped that it will soon be "perfected" or some substitute adopted. The Tribune's correspondent says that Senator Fessenden is expected to speak in favor of the bill in the main as reported from the Committee. He will probably be followed by Senator Simmons, who will urge the importance of radically changing the bill. His scheme is to retain the taxes in the bill reported on spirits, distilled and fermented liquors tobacco of all kinds and playing cards to raise the money tax about 60 per cent, and to substitute in lieu of the other sections imposing tax the following:

Sec. - And be it further enacted That an annual tax of $5 shall be paid by every person or persons, corporation or society for and on account of every other person between the ages of 10 and [illegible] years, whose service or labor for a term of years or for life is claimed to be owned by such first named person or persons, society or corporation, who hold in a fiduciary capacity or otherwise under and by virtue of the laws or customs of any State, and said annual tax shall be levied and collected of the person or persons, corporation or society making such claim and of their goods chattels or lands as hereinafter provided, but in no case shall the person or persons whose service is so claimed, or their service or labor be held for the purpose of collecting said tax. Every producer of any kind whether of the [illegible] agricultural or the mine who produces any commodity that is not specifically taxed by this act of the same [illegible] [illegible] yearly shall pay a tax thereon of [illegible] of 1 per cent [illegible] the amount thereof [illegible] to the Assessor or [illegible] Assessor for the District by the first Monday in May of each year. Every manufacturer who shall manufacture any article of goods, wares and merchandise exceeding in value $1,000 yearly, shall pay a tax upon the value of such manufacture of ½ of 1 per centum and if such manufactured goods are sold in whole or in part by the manufacturer an additional tax of ½ of 1 per centum shall be paid upon the amount so sold. Every merchant, [illegible] trader, dealer including dealers in live stock of every description, who sells any article of produce, wares and merchandise whether foreign or domestic production, if the amount of his, her or their sales shall exceed $100 per month, shall pay a tax of one half of one per centum upon the amount of such sales. Every insurance company and every agency for insurance company abroad whether fire or marine shall pay a tax of one half of one per centum on the amount of receipts for premiums. Every railroad company steamboat ferry boat or omnibus shall pay a tax of three per centum upon their net receipts that is upon their receipts over and above their expenses in carrying on their business. Every person corporation or firm, except farmers, planters or miners, liable to be taxed in this section shall procure a license for conducting the business carried on by them for which license there shall be paid to the Collector of the District in which the business is carried on $10. The internal taxes imposed by this act shall be paid in such manner as shall be prescribed by the Secretary of the Treasury who is hereby authorized to require their payment either in money or stamps, as he may deem best, having regard to the interest of the Government and the convenience of those required to pay them. The amount of the tax to be paid and the mode of ascertaining the same shall be determined according to the provisions of the preceding sections of this act.

It is anticipated that the opposition to the House bill will finally concentrate on this amendment although Senator McDougall will doubtless press his substitute.

Of the rebel prisoners at Camp Douglas Chicago, three hundred and forty two have died, and there are three hundred and twenty yet in the hospital. The whole number of rebel prisoners at that place is over six thousand.

The Advance on the Mississippi. The Union fleet has arrived at Vicksburg about 250 miles above New Orleans, having met with no successful resistance below. There is or was one rebel fort, at least, of considerable strength, Fort Adams, about 100 miles below Vicksburg. The fleet has now conquered more than half the distance from New Orleans to Memphis.

The bomb proof deck of the Galena was only covered with iron from one-half to three quarters of an inch thick, and therefore offered but little obstruction to the heavy balls fired at the boat from a height of two hundred feet. Her sides and bow are plated with two and a half inch iron.

The Mortar Fleets on the Mississippi, it is now said are ineffective, compared with the ships and gunboats. Nine thousand shells were hurled at Forts Jackson and St. Philip, with scarcely any appreciable effect, as was proved by subsequent examination of the forts by General Butler. Commodore Farragut could have passed the forts with his sloop of war and gunboats, as well on the first as on the sixth day of the bombardment. Indeed, the only real damage the forts sustained was from his Parrott and Dahlgren guns. On the upper Mississippi they have been equally as ineffective, as witness Island No 10 and Fort Wright. The official testimony of engineers who planned the attack on Ft Pulaski was to the same effect; the rifled cannon were alone effective. This experience is that of the sieges in former times, bombs do very well to destroy a large city, but are generally ineffective against earthworks and small forts.

A Diamond Wedding—the only one which we we remember to have noticed occurred last week in Massachusetts. It was that of Mr and Mrs Asa Raymond of Shutesbury, who have enjoyed the rare privilege of living to celebrate the *seventy fifth* anniversary of their marriage. Mr Raymond is 97 years of age, and his wife 96.—They belong to families of remarkable longevity each having had some half dozen brothers and sisters who lived to the age of 90 years and upwards. The lives of this aged couple have been spent in the most healthful of all pursuits, that of farming, and they have been persons of prudent and temperate habits. Children, grandchildren and great grandchildren, neighbors and friends were present at the celebration. The following account of the proceedings from the Boston Traveller will interest many readers.

[illegible] the eldest son, addressing a few words to his mother placed upon her bosom a rich diamond pin, as an emblem of the pure wedded life she had lived the past three quarters of a century.

Among the other gifts from filial and loving hands were wedding suits, two silver goblets lined with gold, elegant coffee cups marked "To my Father" and "To my Mother," a splendid copy of the Psalms and New Testament in large type, boxes of choice foreign fruits, bouquets of flowers and a rich wedding cake.

Brief addresses were made during the occasion by Rev. Dr. Paige, Rev. A. Ballard and Hon. [illegible] Hunt, Esq., of New Salem.

A prayer was offered by Mr Ballard when the aged patriarch amid emotions that also a presents [illegible] acknowledging the unceasing kindness and love. His children and grandchildren that had never allowed him to want but had ever made his cup of happiness to overflow. All then united in singing "Praise God from whom all blessings flow," to Old Hundred, in which the "great Grandfather" most fervently joined.

The statements of rebel papers that the yellow fever had broken out at New Orleans are not believed, as the disease has never shown itself there at this season.

The following speech was made by General McClellan to the 7th Maine regiment, after the battle of Williamsburg:

Soldiers: I have come to thank you for your good conduct and gallantry. On the battle plain [illegible] army [illegible] [illegible] I would have deserved equal praise had you been overwhelmed by the odds that were hurled against you. You deserve the highest thanks of your country, and your State should be justly proud of you. Bear on your colors the inscription "Williamsburg" in token of your bravery and as the highest honor that I can confer upon you.

Still are my words are few, but from the bottom of my heart I thank you.

A letter from the South announces that the fifteen millions of coin belonging to the New Orleans banks has been removed to a secure place.

President Lincoln. The Boston Journal well expresses the confidence which the people repose in the wisdom, patriotism and determination of the President at this critical juncture in the affairs of our country.

We observe that a contemporary who believes that the salvation of the Union depends upon the maintenance of slavery, declares that the President, which he [illegible] that part of his proclamation pronouncing Gen. Hunter's order void, ought to have stopped. Undoubtedly there are many persons extant who firmly believe that they could discharge the grave duties of the Presidency at this juncture far more wisely than Abraham Lincoln, but that is of no consequence to the public. The confidence of the masses surrounds the President, and it has been steadily built up by his exhibitions of broad and large comprehension, as well as by this proclamation taken as a whole. In that he shows that not only has he the ability to maintain his own just prerogatives against an unofficial subordinate, but also to comprehend the whole question of which that is only a mere fragment, and the wisdom to turn it to practical account. His appeal to the people of the Border States is timely and solemn, and well will it be for them, and for all of us, if it is heeded in season.

A letter from an officer on board the United States ship Pensacola mentions a fact which we have not seen stated elsewhere. It will be recollected that the gunboat Varuna, Capt Boggs first ran the gauntlet of the rebel forts Jackson and St Philip and engaged the rebel fleet alone. It seems that Capt. Boggs got among them by a ruse. He used some pitch under his boilers, making a dense black smoke like that from the hard pine wood which the rebels used. They thought the Varuna was one of their own boats for very helpless favoring the deception. They discovered their mistake only when she opened fire upon them.

A Forgery. The letter to Flag Officer Farragut from Commodore De Clouet, of the vessel of war Milan, published in the New Orleans newspapers, demanding a notice of sixty days before bombarding the city, is pronounced a forgery in Washington.

The Connecticut River Shad Fisheries.—The usual "catch" of shad at Saybrook is about 8,000 a day—part of which are caught in the "pounds" at the mouth of the river, and part in large drag nets. On Thursday last, at Saybrook the catch amounted to 10,000! They were salted and sent to New York. Seine fishing for shad, goes on briskly, all the way from the mouth of the river to Hartford, and points still higher.

A French naval officer holding a high command has tendered his resignation, in order to devote himself to the completion of a new fulminating spur which he has invented, which will not only drive in the side of a ship, but will lodge in its interior an explosive shell of the most dangerous character.

LOCAL AND MAINE ITEMS.

Job Work. We are prepared to execute job work of all kinds at remarkably low prices and in the neatest style.

☞ Copies of the Daily Whig—price three cents—for sale at our counting-room.

☞ Our Carriers are not allowed to sell papers while on their routes.

*,*Subscriptions for a less time than three months 50 cents per month.

Correction. In the letter of Gov Washburn, published yesterday, in the sentence "The frank and complete manner in which Gen Kearney speaks of our gallant officers and brave men," &c., the word complete was a misprint for "earnest."

☞ Acting Master Washburn, mentioned honorably in the report of Commander Rogers of the U S steamer Galena, is a brother of Governor Washburn.

Resignations and Appointments. We learn that the following have recently been made:

Capt Mayhew of Portland, Co — 1st Cavalry has resigned, and 1st Lieutenant Boothby has been appointed.

Second Lieutenant Walstein Phillips has been made First Lieutenant, and E. C. Bigelow Second Lieutenant.

Capt Kimball, Co B, 11th regiment has resigned, and First Lieut N. W. Cole, takes his place. Second Lieut Alvord is First Lieut, and First Sergeant Dawes Whitney has been appointed Second Lieutenant.

Col Plaisted is very popular with the regiment.

☞ A letter from the Fourth Maine Battery, near Fall's Church, makes the following statement:

"A sad accident occurred to two of our men last Saturday afternoon which has already resulted in the death of Mr C. H. Robie, and the other, Mr F. L. Davis, though now living, cannot long survive. They were at the time of the accident nearly a mile from camp. They had found an unexploded shell which had been fired but the fuse having burnt up to the shell had gone out. They attempted to break it open with a bar of iron, when striking the fuse it exploded, injuring and mangling the poor men in a shocking manner. The left leg of Robie and the right leg of Davis were both broken and shattered in a horrid manner. A piece of the shell also entered the right hip of Davis making an ugly hole. His right hand was also badly torn to pieces. Robie's leg was taken off but he died in twenty minutes.

Davis expressed the wish to be let alone and die without suffering amputation. The surgeons after examination, thought he could not be saved and complied with his wish. When discovered by some farmers who were at work near by, they were conveyed at once to the hospital at Fall's Church.

Davis from the first has not been heard to utter a murmur or make a word of complaint. He is a son of Lewis Davis, Esq., of Readfield where both men belonged."

Heavy Libel Suit. It is stated that a libel suit of D. H. Craig, Agent of the Associated Press against F. O. J. Smith, is now on trial before the Supreme Court of New York city. The alleged libellous article charged Mr Craig with cutting the wire of the Boston and New York line, in order to give Mr Little the advantage of an important cypher despatch. Damages laid $[illegible],000.

☞ Mr Lang's woolen factory at North Vassalboro' is the largest establishment of the kind in the State, employing about 200 hands and using up 150,000 pounds of wool per annum.

☞ A son of Robert Ward of Bath, aged about 20 was drowned in Merrymeeting Bay, on Sunday last.

☞ There is an orange in Lewiston which weighs nearly two pounds.

☞ The new daily paper at Portland is to be called the "Portland Daily Press," and will be under the editorial management of John T. Gilman of the Bath Times and Joseph B. Hall of the Aroostook Herald. The publishing firm is N. A. Foster & Co., composed of N. A. Foster, late City Printer, J. T. Gilman and J. B. Hall. It will be Republican in politics.

Another Maine Infantry Regiment to be Raised. Gov. Washburn has received authority to recruit more troops, and will raise one Infantry regiment, at least, immediately. Arms, equipments, and clothing will be furnished before leaving the State. Papers are ready at the Adjutant General's office, Augusta.

☞ Portland having voted to tax dogs, the authorities are preparing to make an onslaught upon those animals whose owners do not come to time.

The Lewiston Revival. A meeting was held in the open air on Sunday afternoon, at which two or three thousand persons were present. Mr Hammond is to remain a short time longer, owing to the deep religious feeling pervading all classes in that place.

New Firm. It will be seen that our bookselling friends, Messrs O. R. Patch and Charles Hight, have united their establishments and will hereafter carry on the business at Mr Patch's old stand, No. 3 Smith's Block. The movement will, we trust, be advantageous to them both.

☞ By the latest news from Havana we learn that Capt. Charles Pendleton of Searsport, master of barque Amanda, of Bangor, died of black vomit, on the 16th inst. He has been a successful shipmaster for many years, of sterling abilities and irreproachable character, and his death will be deeply regretted by his many friends.

☞ The rebels have appointed a day of humiliation and prayer. Prentice don't believe they will make anything by that. They can no more out-pray the Federals than they can out-whip them.

☞ The target rifle used in Colonel Berdan's corps, contains a telescope so powerful that the color of a man's eye can be distinguished at 400 yards, and the rifle will do execution at 1000 yards.

☞ The latest quotations at the Charleston market are as follows. Sugar cured hams sold at 71 cents per pound, No 1 mackerel, $38,25 per barrel, letter paper $13 a $28 per ream, kerosene oil $4,12 to $6,60 per gallon, cheese 42½ a 80c per pound.

The Yankees, it is said, used to chase the "almighty dollar," but not half so hotly as they are now chasing the rebels.

Death of a Patriot. The late Lieut. Col Edward P. Ellis, of the Illinois 15th regiment, who was killed at the battle of Pittsburg was a native of this State. He was born in Wilton in 1819.

The taxable property of Cincinnati is worth $91,000,000.

The Seventh Maine at the Battle of Williamsburg.—We take the following from a Soldier's letter, in the Maine Farmer:

The Seventh Maine were placed near a piece of woods to keep the enemy from flanking us, while the 33d and 49th New York Regiments deployed to the right and left as skirmishers.—About a mile in front was one of the strongest of the rebel works. Ayers' Battery was placed one-third of a mile in front of the 7th Maine, with a regiment of some other brigade to support it. The battery was playing with great effect upon the fort, when six regiments of rebels came up through the woods nearly to our line of skirmishers, and then rushed out into the field and charged upon the battery. The regiment that was supporting it fled with all possible speed, leaving the battery to take care of itself. Horses were instantly hitched to the guns and caissons, and they were luckily saved. But the rebels came rushing on in full pursuit, and evidently were confident of success, and they would have played the very deuce had not the 7th Maine stood firm. While all around was flight and confusion, we stood perfectly quiet until the battery and the fugitives from the other regiment had passed to our rear. Colonel Mason then moved us just over a hill to the rear, where we were partially out of sight of the exultant rascals, who came rushing on yelling "Bull Run! Bull Run!" Our boys, who thought we were retreating, then began to mutter and swear because they were not ordered to face about and pitch in, although it was apparent to every one that we were outnumbered more than five to one. At last came the command to face about and fix bayonets! and then "good, good, bully for that," &c., went up and down the line, and we waited quietly for the word that was to allow us to go at them. At length it came—'Forward, double quick! give em—' and then we dashed upon them with such a shout as I never heard before. It was terrible, and no pen can describe it. As we went over the hill, the rebels were snug upon us. Within pistol shot of them, we poured so murderous a fire into their ranks that it fairly mowed them down. We were closing in with the bayonet, when their front, so fearfully thinned by our fire, wavered, broke and fled panic-stricken from the field, many throwing away their guns as they ran. We fired two or three more well aimed volleys into them before they reached the shelter of their guns again. Bodies lay in every direction. A cornfield close by was strewn with them. But many were playing "possum," for no sooner had our fire ceased, than up popped a fellow waving a white handkerchief. We told him to come in and he should not be hurt. At this a regular resurrection took place. Men whom we thought dead, arose and came in, evidently rejoiced that they were out of the rebel ranks. They had played the dead game so as to get over to our side.

Robert Small, the negro pilot, who delivered up the steamer Planter into our hands, is, with his associates, we are glad to see, being rewarded for his skill, bravery, and loyalty by Congress. Half the value of the property they delivered up has been allowed to them. Indeed, all the "negro property" they brought out is theirs now, we suppose. But what a woeful instance we have here of the negro's inability to take care of himself! Clearly enough, if Small only had a suitable white overseer, as he ought according to the south side interpretations of scripture, he would never have done this foolish and thoughtless thing. Such fellows need a supervisor who is familiar with the intentions of Divine Providence, and who could tell them where they were meant to stay. For the lack of such oversight, see what has come to pass. A steamer, cannons, ammunition, &c., worth $30,000, are furnished to Dupont, five chattels losing all regard for the curse pronounced against Ham, are set free, and we know not what other divine arrangements are interfered with. Things must be at a sorry pass, when all this is allowed, and even Northern pro slavery papers don't complain.—*Providence Journal.*

The Work of Congress.—Speaker Grow writes to a friend as follows:

"This Congress is redeeming in good faith all its pledges to the people. What you asked of it a few days since was eminently just. It may seem to the country to move slowly, but no Congress before it has in the same time, accomplished so much for the future greatness and glory of the republic—

The national capital free forever.

Slavery forever prohibited in all territories.

The public domain set apart and consecrated to free homes and free men.

The Pacific Railroad authorized.

The *policy of gradual emancipation* inaugurated, besides war measures."

A lady whose favorite cat had been done to death with strychnine by an *inconsiderate* neighbor was advised by Caleb to have the body interred by a grape-vine. Upon being asked the reason of this advice, he remarked that it would increase the growth of the *Cat*awba grape.

Commodore Farragut's Fleet. Among our despatches yesterday is the statement, taken from the Vicksburg Whig of the 12th that the Federal gunboats were "between Fort Adams and Bayou Sara, supposed to be in or about the Red river cut-off." The cut off here referred to is across the opening of the Tunica bend just below the mouth of the Red river, and about two hundred miles above New Orleans. Fort Adams is about forty miles higher up. If Farragut was in that locality eight or ten days ago, his arrival at Memphis may be expected to be announced at any time.—*Boston Journal.*

For New Orleans. It is estimated that over five hundred vessels will sail for the Southern ports by the 1st of June. There will be at least two hundred clearances for cargoes of ice.

The terms proposed for an exchange of Col. Corcoran, it is stated upon reliable authority, have been accepted by the rebel government, and he is expected to be set at liberty in a very few days hence.

There are about ten thousand contrabands, including all classes, on the islands of St. Helena, Port Royal, Ladies, Dawfuskie, Hilton Head and a few others in this vicinity, and they have planted about three thousand acres of corn, potatoes and vegetables.

A Ship Island correspondent says that the Southern musquitoes are quite large, and look a good deal like Northern grasshoppers.

BEAUTIFUL LEGEND There is a beautiful legend of old, how a rough ferryman bore upon his shoulders a little child across the angry waters But midway in the stream the child became a youth, the youth a man, and the burden was almost too much for human strength Yet when with pain and toil the other shore was reached, lo! the rough man had borne our Lord through the waters, and the blessing he had vainly sought for years was bestowed upon him as a reward So it is often in this life Many a woman's great mission is but to carry these little ones onward day by day, with patient toil, and if the burden grows sometimes heavy, let them not despond, or deem that life and its best energies are being wasted

"The cup of cold water only," may sometimes seem a trifling thing, but the reward is sure There is an unseen power above us which weighs with an even hand the deeds and the motives of our daily life, and many a deed that the world praises for its greatness, may be lighter than vanity in His balance

ANOTHER BIG STORY A correspondent of the London Times writes

In the last fight three balls of the Merrimac struck the Monitor almost at the same place and right on a joint where the head of a big nail was protruding The whole effect of these three balls *was to flatten that nail a little*

PRESIDENTIANA The rebels have repeatedly run without taking away with them their cannon, their small arms, or their character as fighting men

Bladders and rebel war steamers are made to be blown up

The Sun of the rebellion is no longer in the sign of the Ram

We have put a lock on Charleston harbor, and she can't find any key to fit it

Memphis talks of burning herself up Hadn't she better bite herself to death

The great rebel army ran away from Yorktown and then from Williamsburg, but not till after the great rebel Congress had run away from Richmond

A matter of sincere regret is, that old Hollins wasn't mounted on the back of his ram when the river-sheep went under

The flowers that bloom most abundantly in the Southern Confederacy at this time are the "pinks of chivalry "
